Description

Provide a short description of the event and its activities.

In this third event of our weUESoUD project, we started to work on the goals we proposed in our application, namely the third theme: "Greek women in the fight against racism, xenophobia and in support of African immigrants".

We highlight in the activities that took place during the days of the event, the 2nd day of activities with the official presentation of the project to the local community and the media in the City Hall of Kilkis that took place in the morning. In this place took place the Conference: "Greek women in the fight against racism, xenophobia and in support of African immigrants", with the presence of local experts, and also the Workshop "Multiculturalism and the value of equality and diversity - Integration and Stigmatization of Minorities". In the afternoon we made a cultural visit with a local tourist guide to the historic centre of Kilkis.

On the 3rd day, we have the opportunity to have a cultural visit to the historic centre of Thessaloniki and a free afternoon.

With this event in Kilkis we were able to reach the project's target audience "the "daughters" (40 to 50 year old generation) and the "granddaughters" (15 to 30 year old generation) of women who were immortalized by the actions they developed and by the assumption of their right to be citizens. Our main target audience made up of the binomials Woman - mother, wife - daughter, was and is fundamental in the political and social struggles, so that today we can live in Freedom and Democracy". We were able to carry out with great quality the actions that we proposed to do, namely the conference, round table, and cultural visits.

We were able to carry out with great quality the actions that we proposed to do, namely the conference, workshop, and cultural visits. In this way we have achieved, as we proposed, an exchange of experiences between the parties involved, with a constant encouragement of citizen's active participation in European social and political life. We continued in this event to create a solid and lasting relationship of cooperation between all local and foreign partners, which translated into an opportunity for broadening perspectives, cultural enrichment, and human development for the participants.
